Once just a pizza parlor, Players is one of the oldest sports bars in Sacramento, family owned & operated since 1984. Originally opened as "Sports Bar & Grill", the family sold the business in 1994, and bought it back in 1995, and renamed it Players Sports Pub & Grill. We opened our 2nd location, Players Pub, just two blocks away in 1987.

Players has a long standing reputation throughout the greater Sacramento area as an exciting upscale venue that offers a unique atmosphere, outstanding food and great fun.

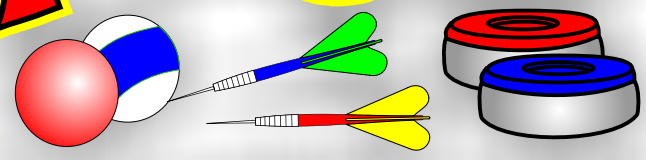

We have many loyal customers that we consider "family" who have been coming in since the day we opened, and without whom we would not still be here today.

Whether its Players Sports or Players Pub we can exceed your needs and provide a neighborhood atmosphere that can make your event successful.

Totals Pool \_\_\_\_\_ Darts \_\_\_\_\_ Shuffleboard \_\_\_\_\_ Basketball \_\_\_\_\_

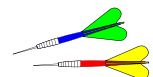

Total Score \_\_\_\_\_

**Pool:** Decide who will break for the team. Each player on the team is given 3 shots in a row. The break does not count as a shot, however any balls that drop into a pocket on the break are added to that players score. (This is where strategy comes in!!) The entire team plays through until each member has taken their three shots. You want to make sure you use strategy here as well because the last player will have less shots to choose from.

Player makes first shot - misses second shot - makes third shot players score 2 points x 10 = 20

**Darts:** Each player is given three darts to throw in a row. Score all three darts, a miss of the board is considered a zero. The outer circle is considered a double - the second circle is a triple and the bulls eye is worth 50 points. Game choice 301.

Player first dart = 18 Second dart = 5 Third dart-double 15 = 30 Score = 53

**Shuffleboard:** Each player glides four pucks in a row. Scoring- use black numbers 1, 2, 3, & 4 Puck must cross the line completely to score next #.

Players first puck = 1 Second puck = 3 Third puck offboard = 0 Fourth puck = 2 Score 6x5 = 30
